VII. Adjournment

Types of previous Antioch group projects have included:

- developing, piloting and strengthening a carbon-reduction program for local businesses;
- identifying “best practices” for farmers’ market operations and municipal arrangements;
- building effective grassroots campaigns for passage of legislation supporting various conservation efforts;
- climate change adaptation and planning for communities;
- environmental education program evaluation and design;
- researching and preparing recommendations for various planning boards and conservation commissions;
- assessing a solid waste program;
- completing assessment processes, natural resource inventories, and ecological studies to inform community initiatives;
- evaluation of college campus sustainability practices; and
- development of socially responsible business practices for a certified B corporation.
