It has been a busy summer season at Laconia Fire Department!

It was beautiful summer weather wise, and the great weather may be the cause of a big jump in emergency calls in Laconia. Firefighters responded to 1,298 emergency calls from Memorial Day weekend through Labor Day weekend. The number of calls equates to 14 calls per day and represents an 11% increase over the 3-year average.

There were 8 building fires (four of which required additional alarms), 2 chemical releases, 2 plane crashes, 7 mutual aid fires in other towns, 8 water rescues and 28 high risk Status 1 patients. In addition to these calls there were two significant storms that impacted the City and resulted in heavy activity for the Fire Department, Police Department, and Public Works.

Sixteen percent of the emergency calls were in the Weirs area. Seventeen percent of the calls were after 11PM and before 7AM. Even with the increase in calls we maintained a response time of 6 minutes 84% of the time and four minutes 61% of the time.

NH HUMANE SOCIETY Laconia • New Hampshire

Pet of the Week: Florence

Florence arrived at New Hampshire Humane Society in early August, as part of a very large group of cats whose owner recognized caring for their needs was far in excess of human capabilities. Luckily for Florence, NH Humane Society was ready to help.

A petite little brown tabby girl, her beauty shines through the most amazing jade green eyes. Florence is delicate and dainty and ever so ladylike in her demeanor; wishing only to be cuddled and caressed by humans who will provide a safe environment, not as feline dense as she had formerly endured.

Truly, a wonderful little cat – aged only three, she is micro chipped, fully vaccinated, spayed, with a clean bill of health from our staff veterinarian. September would be a “purrfect” month to adopt her, since a portion of the adoption fee will be offset by funds received from *Emily’s Wish*.

September 27th at Taylor Community*

The next program in the Taylor Community Music Series, sponsored by Bank of New Hampshire, is scheduled for Sunday, September 27 at 3 pm in Taylor's Woodside Building, 435 Union Ave. The event is free and open to the public. Reservations are not required.

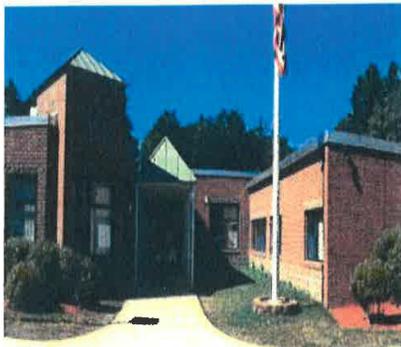

The concert will feature Susie Burke and David Surette, who have made a name for themselves as one of the finest acts on the lively New England folk scene. Their performance is generously being sponsored by Judy Dean.

Together since 1988, Burke and Surette have built a steady following for their own blend of contemporary, traditional and original folk and acoustic music. Burke's vocal style is at once stunning and heartfelt and is matched by Surette's fluid fretwork.

Slow Down: Back to School Means Sharing the Road

Things get a little crazy on the roads during the school year: Buses are everywhere, kids on bikes are hurrying to get to school before the bell rings, harried parents are trying to drop their kids off before work.

It's never more important for drivers to slow down and pay attention than when kids are present - especially before and after school.

If You're Dropping Off

Schools often have very specific drop-off procedures for the school year. Make sure you know them for the safety of all kids. More children are hit by cars near schools than at any other location (<http://www.saferoutesinfo.org/program-tools/improving-school-drop-and-pick-zones>), according to the National Safe Routes to School program. The following apply to all school zones:

- Don't double park; it blocks visibility for other children and vehicles
- Don't load or unload children across the street from the school
- Carpool to reduce the number of vehicles at the school

Sharing the Road with Young Pedestrians

According to research by the National Safety Council, most of the children who lose their lives in bus-related incidents are 4 to 7 years old, and they're walking. They are hit by the bus, or by a motorist illegally passing a stopped bus. A few precautions go a long way toward keeping children safe:

- Don't block the crosswalk when stopped at a red light or waiting to make a turn, forcing pedestrians to go around you; this could put them in the path of moving traffic
- In a school zone when flashers are blinking, stop and yield to pedestrians crossing the crosswalk or intersection
- Always stop for a school patrol officer or crossing guard holding up a stop sign
- Take extra care to look out for children in school zones, near playgrounds and parks, and in all residential areas

(Continued on next page)....

Laconia Police Department

[Link to
Laconia
PD here](#)

Slow Down: Back to School Means Sharing the Road (Continued)

- Don't honk or rev your engine to scare a pedestrian, even if you have the right of way
- Never pass a vehicle stopped for pedestrians
- Always use extreme caution to avoid striking pedestrians wherever they may be, no matter who has the right of way

Sharing the Road with School Buses

If you're driving behind a bus, allow a greater following distance than if you were driving behind a car. It will give you more time to stop once the yellow lights start flashing. It is illegal in all 50 states to pass a school bus that is stopped to load or unload children.

- Never pass a bus from behind – or from either direction if you're on an undivided road – if it is stopped to load or unload children
- If the yellow or red lights are flashing and the stop arm is extended, traffic must stop
- The area 10 feet around a school bus is the most dangerous for children; stop far enough back to allow them space to safely enter and exit the bus
- Be alert; children often are unpredictable, and they tend to ignore hazards and take risks

Sharing the Road with Bicyclists

On most roads, bicyclists have the same rights and responsibilities as vehicles (<http://bikeleague.org/content/traffic-laws>), but bikes can be hard to see. Children riding bikes create special problems for drivers because usually they are not able to properly determine traffic conditions. The most common cause of collision is a driver turning left in front of a bicyclist.

- When passing a bicyclist, proceed in the same direction slowly, and leave 3 feet between your car and the cyclist
- When turning left and a bicyclist is approaching in the opposite direction, wait for the rider to pass
- If you're turning right and a bicyclist is approaching from behind on the right, let the rider go through the intersection first, and always use your turn signals
- Watch for bike riders turning in front of you without looking or signaling; children especially have a tendency to do this
- Be extra vigilant in school zones and residential neighborhoods
- Watch for bikes coming from driveways or behind parked cars
- Check side mirrors before opening your door

By exercising a little extra care and caution, drivers and pedestrians can co-exist safely in school zones.
