Old Business-
The license clerk was notified by the Parks & Rec Department that there are several use permits that have come in for use of the wow trail but the walks are beginning at either the middle school or Opechee park, the board confirmed that they would also need a use of streets or highway permit from the licensing department, the license clerk will notify the Parks & Rec Department.

The Chairman spoke to the board about complaints we have received by a City Councilor that our Motorcycle week licenses are not visible so he believes they are not licensed. We think he is referring to a large vendor who rents one huge space that stretches along the sidewalk. Licenses are issued by space not by size and even though their license is posted at one section of the tent it cannot be seen at the other end. The license clerk is going to look into using a florescent color paper for the licenses as well as a duplicate stamp that can be placed on copies of licenses to be posted at the opposite end of the tent.

Adjournment- Motion to adjourn by Captain Canfield, seconded by Chief Erickson, Adjourned.
