The License Clerk informed the board that next week at the Motorcycle Technical Review Committee meeting that she attends as well as Captain Canfield. That one of the applications that is going for review stated on their application that the site already has entertainment all year round, which isn't the case, and she just wanted to make sure that they were aware that there was several separate items showing on the site plan that would require several entertainment licenses and that they would not be exempt. The board agreed that whoever was responsible for each of the entertainment items whether it be separate vendors or the property owner themselves that they would definitely have to be licensed. Captain Canfield also stated that just because it's on the plan now, doesn't exactly mean it's really going to be there. There are a lot of things that don't show up and you never know until the event actually starts.

Adjournment- Motion to Adjourn by Chief Erickson, seconded by Captain Canfield, Adjourned.
