Motion to approve by Deputy Pendergast, seconded by Sergeant Lessard, Approved

Councilor Ava Doyle appeared at the meeting to voice some concerns about Outdoor Loudspeakers and she thinks that abutters should be notified, she feels that if there is a special event being created that it would be a good idea to try to notify we came up with some suggestions that we would try to get the agenda online and the minutes quicker and maybe try to get it into the Laconia links to try to notify residents or to email the weirs action committee to forward along to the weirs residents and its tough because a lot of these events come up with short to no notice. The chairman suggested making a requirement to applying that they notify the abutters but there wouldn't be any guarantee that the applicant actually notifies the abutters.

The license clerk also brought the attention to the board that our licensing chapter under definitions does not have an actual definition for a Taxi Cab Company & Taxi Cab Driver because we have received some complaints about people giving rides and they are arguing what the actual definition of a company and/or driver is. The license board agreed that we should consult legal about create new definitions to get them added as soon as possible.
