

2014 PROPOSED SANITARY SEWER UPGRADES

1. Replacement of the force-main on Old North Main Street as part of a comprehensive pump station upgrade of the facility on Clearwater Place.
 - Replacing the force-main will involve two excavations which are needed to insert a new 6" pipe into the original 10" 1962 pipe
 - A bypass pipe will continue service while installation of the new force-main and until the pump station upgrade is complete
2. Replacement and upgrade of sanitary sewer mains on Union Avenue in conjunction with the water main and road reconstruction from Gilford Avenue to Messer Street.
3. Continuing the ongoing sanitary sewer main cleaning and video evaluation of pipe throughout the City for planning infrastructure upgrades as needed.
